

Dear Sir or Madam:

I must say that I benefit everyday from listening to the Instant Traffic and Weather offered by XM. I have it as a station preset on my Delphi unit for a reason. Not only am I able to check on my commute, but I am able to check on the traffic status around the Metro Area and check on traffic that may be affecting my family. The quality of the reports are much better than any regular radio station that always seem so rushed. My Satellite radio is the best quality radio I have ever heard. Any XM subscriber will say the same thing. I pay for these services and believe that I should not be told what I can and can't listen to. I urge the FCC to reject the NAB's petition 04-160 and allow XM to provide the programming that I demand and pay for each month.

Sincerely,  
Maryann Laurenzano
